SPONSORSHIP PACKAGE

The 26th Asia-Pacific Software Engineering Conference

2 - 5 December 2019

Zenith Hotel, Putrajaya, Malaysia

<http://seminar.utmspace.edu.my/apsec2019>

The Asia-Pacific Software Engineering Conference (APSEC) has long been established as a premier regional conference that brings together researchers and practitioners from academia, industry and government to share the state of the art and the practice of software engineering, and to explore emerging challenges and solutions in software engineering innovation. APSEC 2019 will continue in the tradition of previous editions of this regional conference to be organised by Malaysian Software Engineering Interest Group (MySEIG) for the second time in Malaysia after the 16th APSEC 2009 in Penang Island, Malaysia. As past APSEC series, the main research track features the most recent and significant innovations in the field of software engineering and all its sub-disciplines. We invite submissions of high quality research papers that describe original and unpublished results on all topics of both theoretical and empirical software engineering research.
