ICRIIS09 - Call for Short Paper (4 pages)
Submission due date: October 15, 2009

ICRIIS09 is now offering opportunities to all researchers/practitioners to submit short papers (4 pages). Accepted short paper will be published in ICRIIS'09 conference proceeding.

Introduction

Today, computer, Internet, wireless and mobile technologies are used widely. It has led to performing transactions virtually, remotely and promoting the use of hand-held devices. With the emergence of IT-based or digital economy, the term “Digital Ecosystems” has been recognized as a center of discussion for future advanced ICT-based economy. Taking the opportunity of the rapid and continuous growth of ICT, the Information Systems Department, Faculty of Computer Science and Information Systems, Universiti Teknologi Malaysia (UTM) has embarked to organize the International Conference on Research and Innovation in Information Systems (ICRIIS’09).

Theme

The theme for the first ICRIIS’09 is “K-Communities through Digital Ecosystem”.

Objectives

The main objective of ICRIIS’09 is to provide a platform for researchers, academicians, professionals, government and private sectors from all over the world to present their research result and innovation in the field of Information Systems and ICT.

Topics for Short Paper

ICRIIS’09 welcomes contributions in areas including but not limited to:

- Social Network/Collaborative Platform
- Human Computer Interaction
- Knowledge Innovation And Discovery
- Privacy And Security In Social Computing
- Enterprise Application, Integration, And Services
