The conference will seek and offer the best platform to bring together researchers and practitioners in the field of water management and related disciplines. It aims to provide a forum for the presentation and discussion of new developments, research findings, and practical experiences in the field. The conference will cover a wide range of topics, including flood management, water quality, environmental management, and sustainable development. It will also provide opportunities for networking and collaboration among professionals and students from diverse backgrounds.

The conference will be held from [Start Date] to [End Date] at [Location]. It will feature keynote speeches, technical presentations, poster sessions, panel discussions, and workshops. Participants will have the opportunity to engage in debates and discussions with experts from around the world.
